Europool spa

THE ONLY PRODUCTION IN POLAND
INNOVATIVE SOLUTIONS

QUALITY  DESIGN

Model: Elysium
 Capacity: 5 person - (2 lounges + 3 seats)
 Size: 2,20m x 2,20m x 0,92m (1,04 with cover)
 Water Capacity: ok. 1400 l
 Net Weight: 300 kg
 Full of water weight: ok. 1700 kg
 Voltage: 230 V / 50 Hz (Single Phase) / 32 A / 400 V / 50 Hz (Triple Phase) / 32 A
 Shell material: USA acrylic Plaskolite 3,8mm + barriercoat + fiberglass
 Control System: Gecko In.YE3
 Heater: Gecko 3kW
 Pump: Gecko 2 x 3HP 1-speed massage pump, Gecko 1x0,25HP circulation Pump
 Water purification: UV + Ozone System - American CMP
 Paper element filter: 2 pcs.
 Side walls: Perforated Aluminium with quick installation technology. Available in 5 colors
 Skimmer: Aluminium skimmer
 Total Jets: 74 pcs.
 4 inch double rotate jets: 4 pcs.
 3 inch double rotate jets: 10 pcs.
 3 inch single rotate jets: 6 pcs.
 2 inch jets standard: 54 pcs.
 Bottom light 3W: 1 pc. RGB
 Pillow: 4 pcs.
 Water outlet/inlet: 1 pc.
 Small LED lights: 7 pcs.
 Insulated Cover: 1 pc. - made in EU available in 2 colors
 Insulation on tub body: Polyurethan foam
 Insulation on skirt: Aluminium isolation
 Bluetooth waterproof speakers: 2pcs. with Gecko sound system

E U R O P O O L S P A
 E L Y S I U M J A C U Z Z I

Regular jacuzzi bathtubs were not sufficient for our customers. Standard quality of craftsmanship and repetitive design were not enough. That's why we decided to create a new line of jacuzzi bathtubs here in Poland. The first one was the Elysium spa tub. The name in Greek mythology means a place for happy souls. Unique relaxation for body and mind is exactly what we aim to provide you with.

CUSTOM
PRODUCTION
IN POLAND

Standard jacuzzis are imported from abroad, where they are mass-produced in large manufacturing facilities. We are the only company in Poland producing our own jacuzzi tubs, almost entirely by hand, on special customer orders.

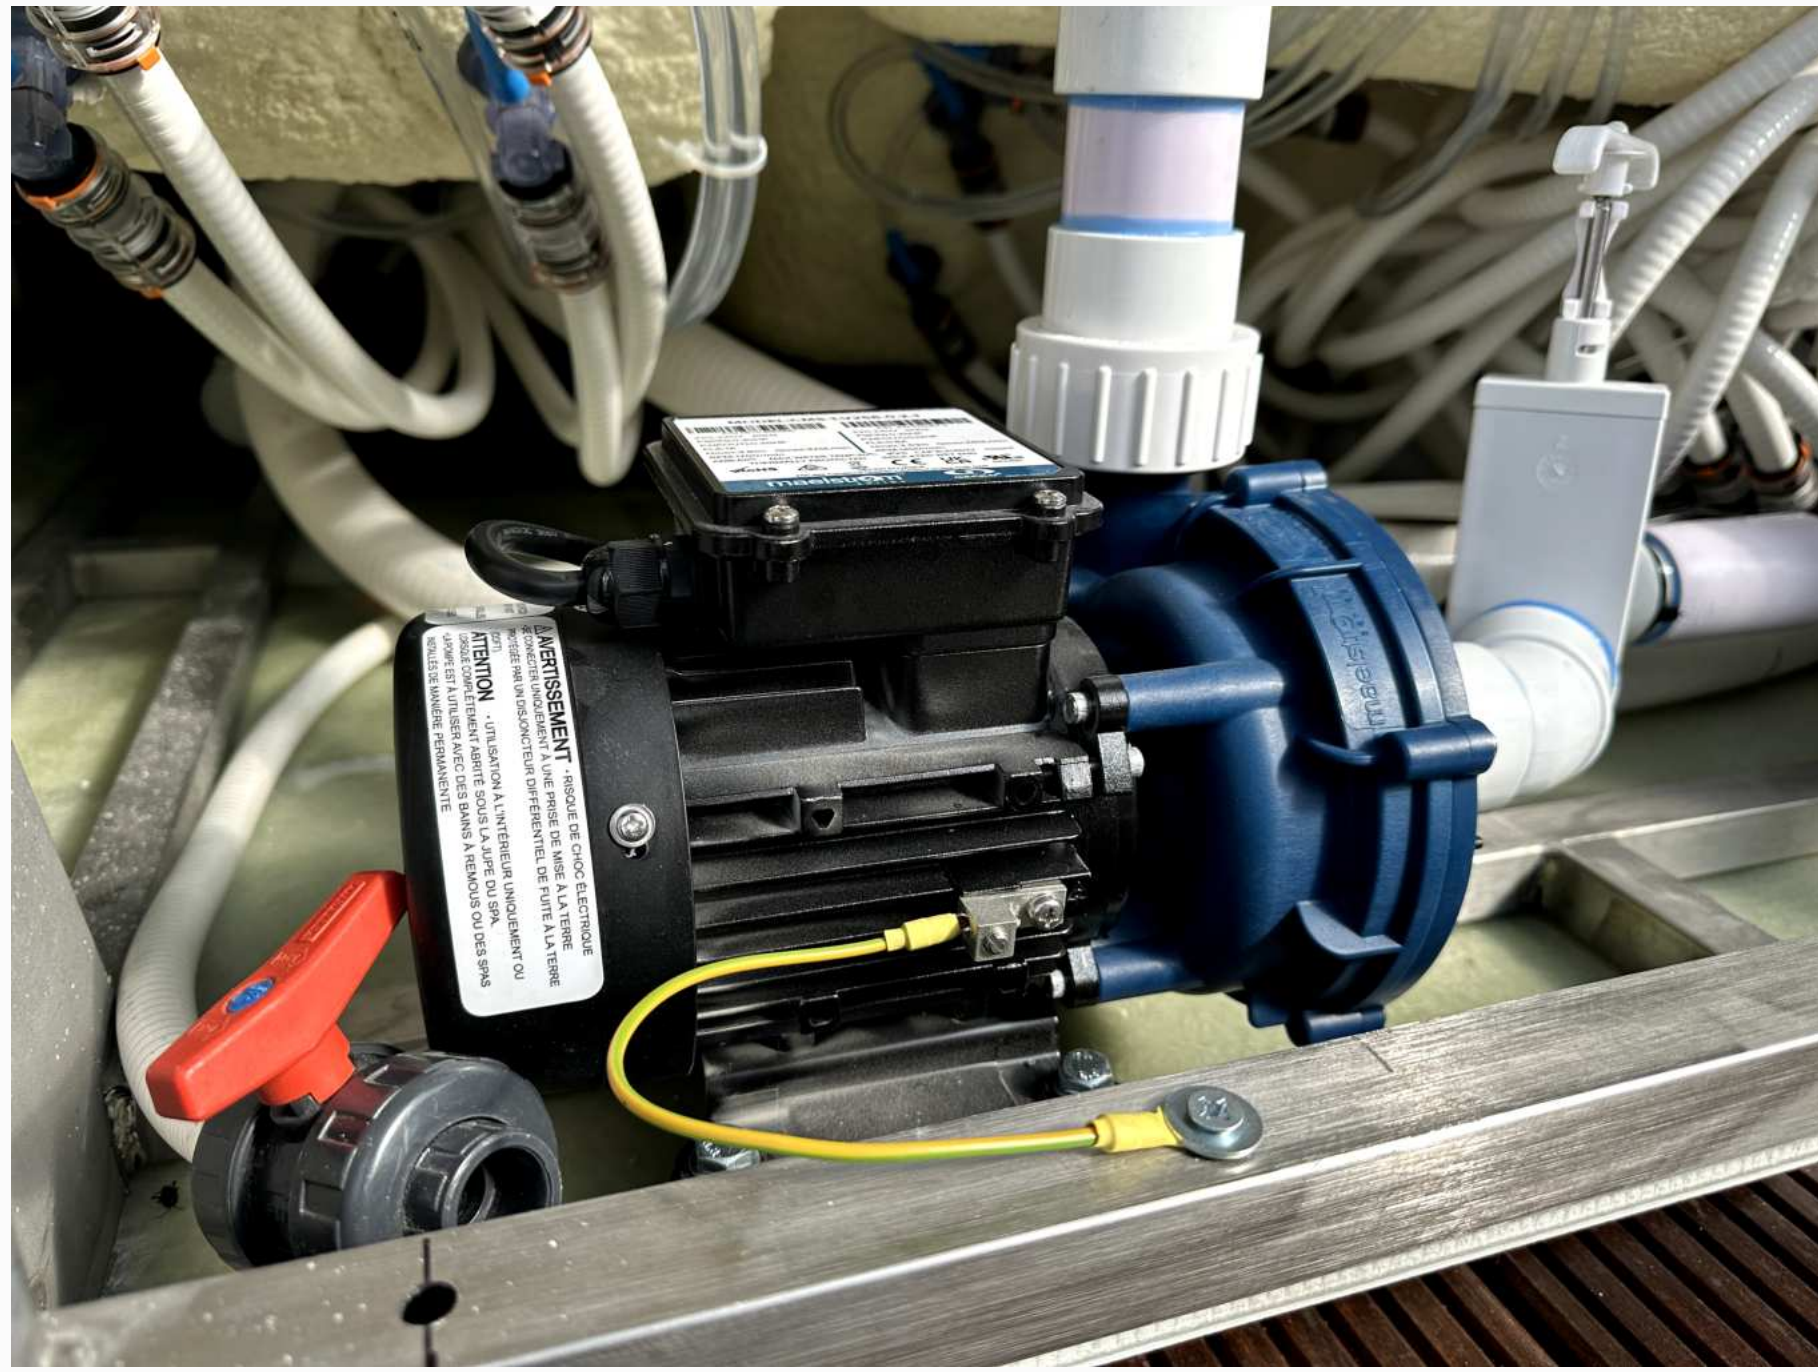

15 YEARS
OF MANUFACTURING
EXPERIENCE

Europool Spa was founded on the experience of Europool, which has been producing luxury outdoor pools since 2007. With years of experience in serving premium clients, we know how to meet their expectations.

ERGONOMIC SEATING LAYOUT

Months of designing and testing have allowed us to achieve perfectly ergonomic seats and loungers that cater to both tall and short individuals. You can truly feel the difference!

C O M P O N E N T S
F R O M T H E C A N A D I A N
C O M P A N Y G E C K O

Jacuzzi tubs are often equipped with Chinese components, which can lead to durability and servicing issues. The devices used in our jacuzzis, such as pumps, touch screens, and heaters, come from a leading global manufacturer. This ensures quality and quiet, energy-efficient operation.

Q U I C K C O N N E C T I N S T A L L A T I O N

Connecting pipes with glue is the most common reason for complaints about jacuzzi tubs – over time, the installation begins to leak, and repairing it is complicated. All pipes in our jacuzzis are connected without the use of glue, using quick-connect fittings resistant to overloads and vibrations. This ensures that the installation does not develop leaks over time, and any maintenance work is easy and quick.

G L U E - F R E E J E T I N S T A L L A T I O N

To ensure the durability of the jacuzzi, we have reduced the use of glue by 80% to the necessary minimum. This also involves innovative jet installation technology, ensuring durability and no leakage.

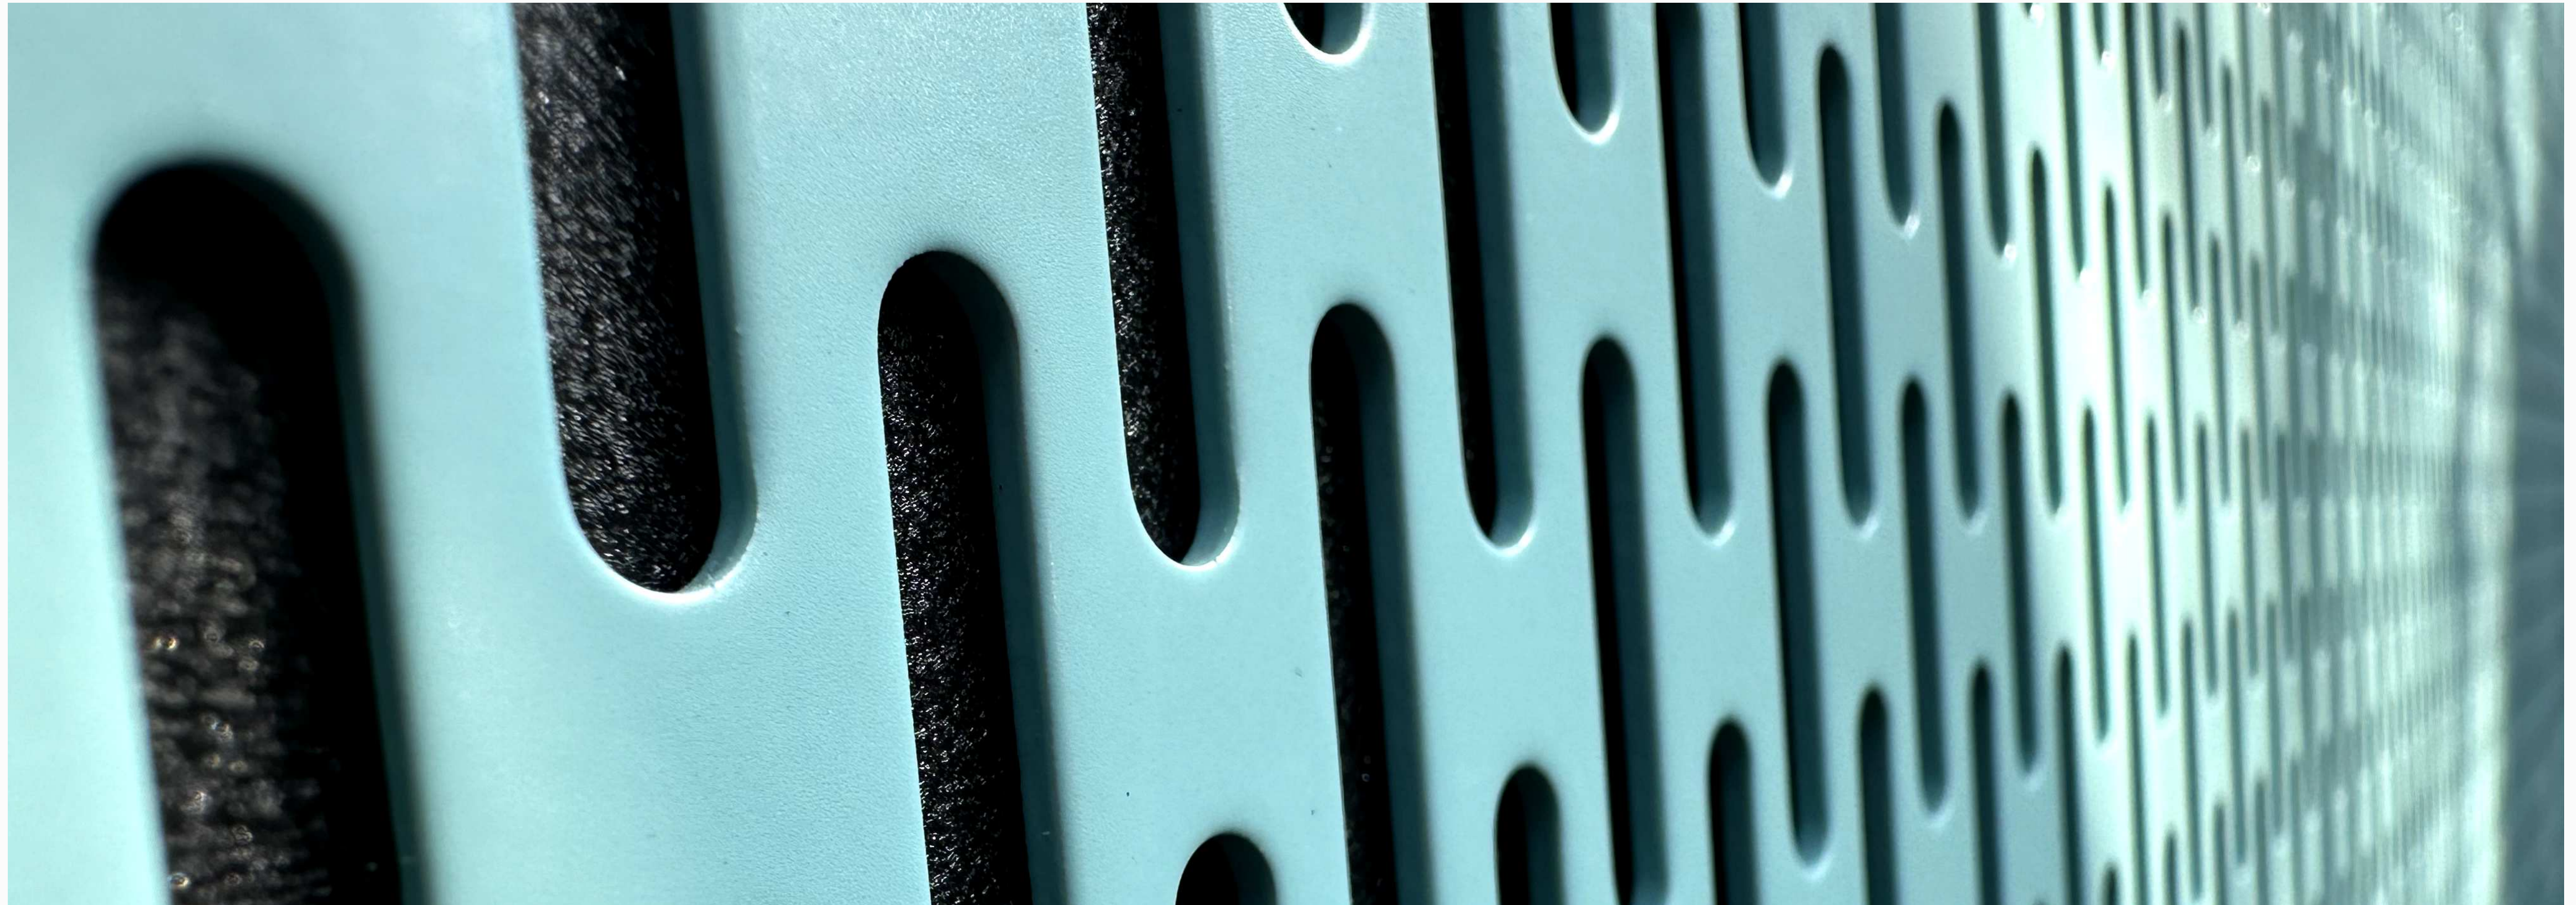

TUB MADE
OF AMERICAN
ACRYLIC

The tubs of our saunas are crafted from acrylic reinforced with fiberglass laminate. This solution is perfectly smooth, durable, scratch-resistant, and resistant to discoloration. Cheaper tubs often have PVC tubs. This material is significantly less durable and aesthetically inferior to acrylic. It also has poorer insulation properties.

EXPANDED
MASSAGE
JET SYSTEM

Each of our tubs features approximately 70 massage jets strategically positioned to target the entire body, from shoulders to feet.

A L U M I N U M C A S I N G

The casing of standard tubs is made of plastic, which is significantly less durable. Over time, it may develop discoloration from sunlight exposure. The casing of Europool Spa jacuzzis made of aluminum is durable, resistant to warping, and does not discolor under sunlight exposure.

B L U E T O O T H A U D I O S Y S T E M

Europool Spa tubs are equipped with built-in speakers. Simply connect your phone via Bluetooth, and then conveniently control the player from the jacuzzi's touch panel.

T H E R M A L C O V E R I N C L U D E D

With Europool Spa jacuzzis, you will receive a complimentary thermal cover, which reduces water evaporation, helps maintain its temperature, and prevents contaminants from entering.

M O D E R N S K I M M E R

A skimmer is a device into which water is sucked in for purification. The skimmer in our bathtubs has a completely different structure than the standard one, which means it cleans more water in a shorter time.

S T A I N L E S S S T E E L F R A M E

The frames of our tubs are practically everlasting, resistant to adverse conditions for many years.
