THE ONLY PRODUCTION IN POLAND
INNOVATIVE SOLUTIONS

QUALITY  DESIGN

E L Y S I U M

Capacity: 5 person - (2 lounges + 3 seats)
Size: 2,20 m x 2,20 m x 0,92 m
Water Capacity: approx. 1400 l
Net Weight: 300 kg
Full of water weight: approx. 1700 kg
Voltage: 230 V / 50 Hz (Single Phase) / 32 A / 400 V / 50 Hz
Shell material: USA acrylic Plaskolite 3,8mm + barriercoat + fiberglass
Control System: Gecko In.YE3
Heater: Gecko 3 kW
Pump: Gecko 2x3HP 1-speed massage pump, Gecko 1x0,25HP circulation Pump
Water purification: UV + Ozone System - American CMP

Paper element filter: 2 pcs.
Side walls: Perforated Aluminium with quick installation technology. Available in 5 colors.
Skimmer: Aluminium skimmer
Total Jets: 74 pcs.
4 inch double rotate jets: 4 pcs.
3 inch double rotate jets: 10 pcs.
3 inch single rotate jets: 6 pcs.
2 inch jets standard: 54 pcs.
Bottom light 3W: 1 pcs. RGB
Pillow: 4 pcs.
Water outlet/intlet: 1 pcs.
Small LED lights: 7 pcs.
Insulated Cover: 1 pc. - made in EU available in 2 colors
Insulation on tub body: Polyurethan foam
Insulation od skirt: Aluminium isolation
Bluetooth waterproof speakers: 2pcs. with Gecko sound system

S E L E N E

Capacity: 5 person - (2 lounges + 3 seats)
Size: 2,285 m x 2,28 m x 0,92 m
Water Capacity: approx. 1200 l
Net Weight: 390 kg
Full of water weight: approx. 1600 kg
Voltage: 230 V / 50 Hz (Single Phase) / 32 A / 400 V / 50 Hz
Shell material: USA acrylic Plaskolite 3,8mm + barriercoat + fiberglass
Control System: Gecko in.Touch 2-KIT
Heater: Gecko in.ye-V3 3kW 3 kW
Pump: Gecko 2x2,5HP 1-speed massage pump, Gecko 1x0,2HP circulation Pump
Water purification: UV + Ozone System - American CMP

Paper element filter: 2 pcs.
Side walls: Perforated Aluminium with quick installation technology. Available in 5 colors.
Skimmer: Aluminium skimmer
Total Jets: 61 pcs.
3 inch double rotate jets: 8 pcs.
3 inch single rotate jets: 9 pcs.
2 inch jets standard: 44 pcs.
Bottom light 3W: 1 pcs. RGB
Pillow: 5 pcs.
Water outlet/intlet: 1 pcs.
Small LED lights: 6 pcs.
Insulated Cover: 1 pc. - made in EU available in 2 colors
Insulation on tub body: Polyurethan foam
Insulation on skirt: Aluminium isolation
Bluetooth waterproof speakers: 2pcs. with Gecko sound system

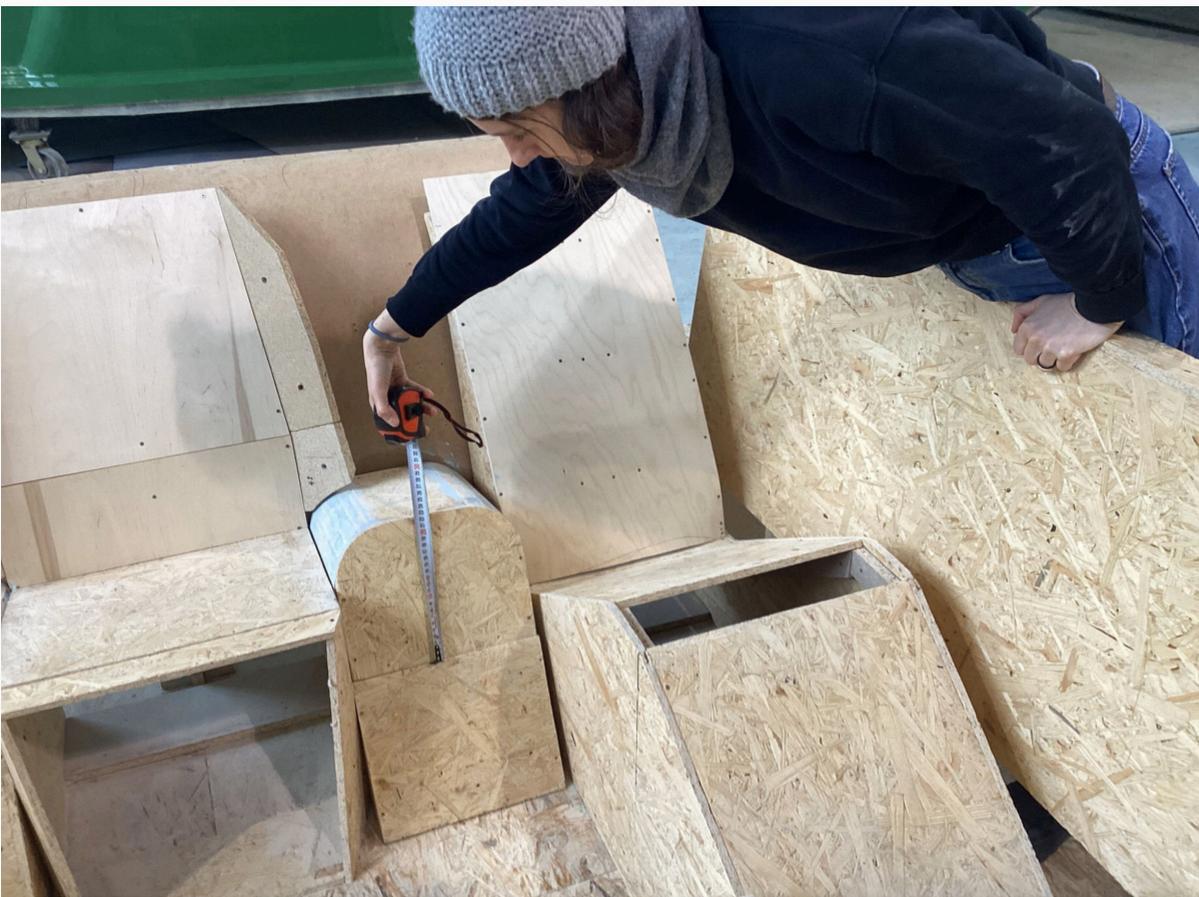

CUSTOM
PRODUCTION
IN POLAND

Standard bathtubs are imported from abroad, where they are mass-produced in large manufacturing facilities. We are the only company in Poland producing our own hot tubs, almost entirely by hand, on special customer orders.

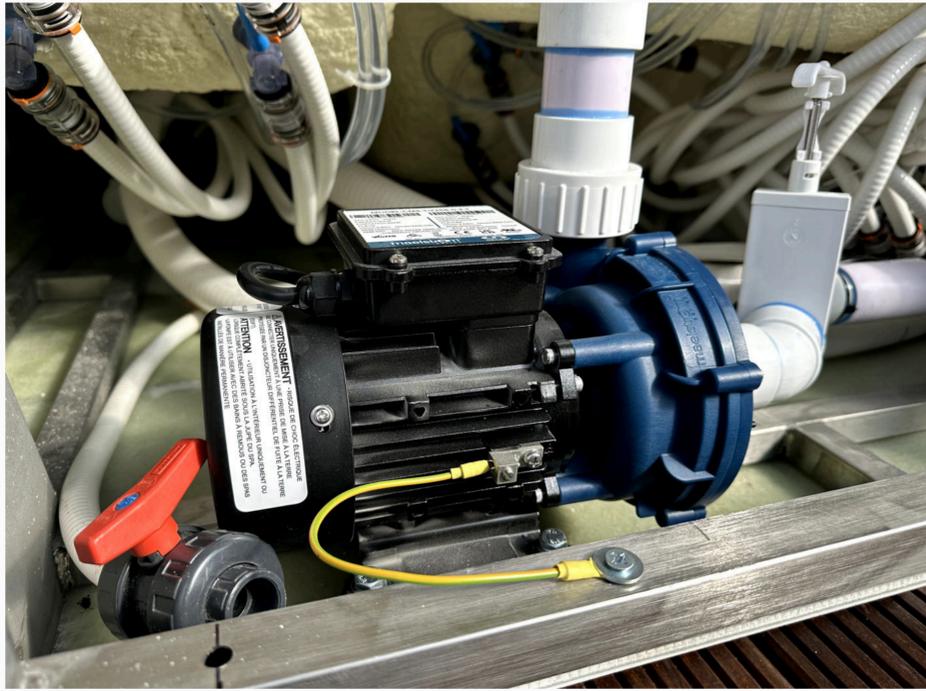

18 YEARS
OF MANUFACTURING
EXPERIENCE

Europool Spa was founded on the experience of Europool, which has been producing luxury outdoor pools since 2007. With years of experience in serving premium clients, we know how to meet their expectations.

ERGONOMIC SEATING LAYOUT

Months of designing and testing have allowed us to achieve perfectly ergonomic seats and loungers that cater to both tall and short individuals. You can truly feel the difference!

C O M P O N E N T S

C O M P A N Y G E C K O

Hot tubs are often equipped with Chinese components, which can lead to durability and servicing issues. The devices used in our bathtubs, such as pumps, touch screens, and heaters, come from a leading global manufacturer. This ensures quality and quiet, energy-efficient operation.

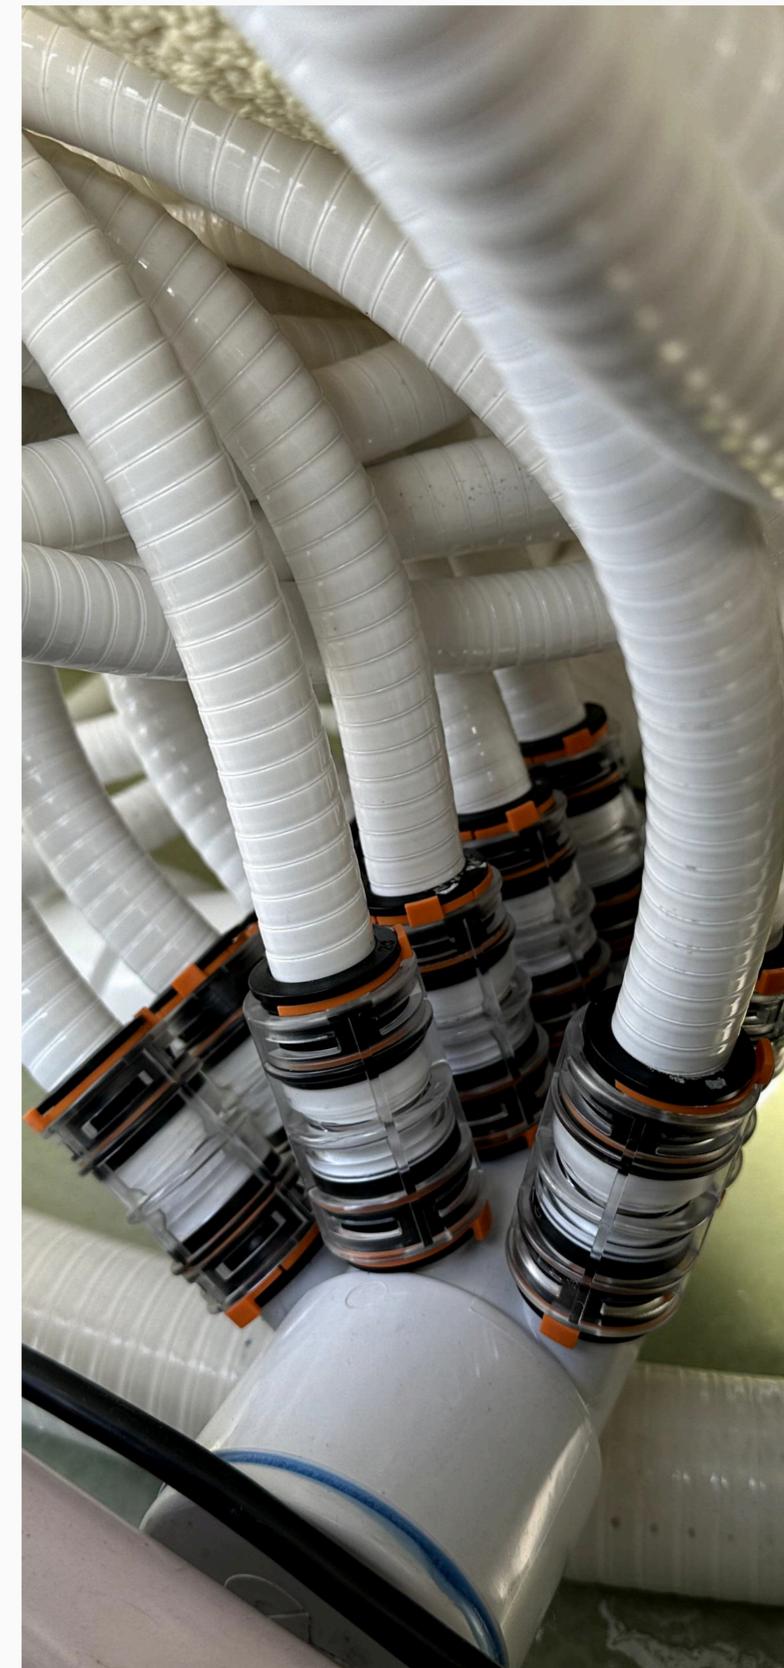

Q U I C K C O N N E C T I N S T A L L A T I O N

Connecting pipes with glue is the most common reason for complaints about hot tubs – over time, the installation begins to leak, and repairing it is complicated. All pipes in our bathtubs are connected without the use of glue, using quick-connect fittings resistant to overloads and vibrations. This ensures that the installation does not develop leaks over time, and any maintenance work is easy and quick.

G L U E - F R E E J E T I N S T A L L A T I O N

To ensure the durability of the bathtub, we have reduced the use of glue by 80% to the necessary minimum. This also involves innovative jet installation technology, ensuring durability and no leakage.

O F A M E R I C A N
A C R Y L I C

The tubs of our saunas are crafted from acrylic reinforced with fiberglass laminate. This solution is perfectly smooth, durable, scratch-resistant, and resistant to discoloration. Cheaper tubs often have PVC tubs. This material is significantly less durable and aesthetically inferior to acrylic. It also has poorer insulation properties.

M A S S A G E
J E T S Y S T E M

Each of our tubs features approximately 70 massage jets strategically positioned to target the entire body, from shoulders to feet.

A L U M I N U M C A S I N G

The casing of standard tubs is made of plastic, which is significantly less durable. Over time, it may develop discoloration from sunlight exposure. The casing of Europool Spa bathtubs made of aluminum is durable, resistant to warping, and does not discolor under sunlight exposure.

BLUETOOTH AUDIO SYSTEM

Europool Spa tubs are equipped with built-in speakers. Simply connect your phone via Bluetooth, and then conveniently control the player from the touch panel.

MODERN SKIMMER

A skimmer is a device into which water is sucked in for purification. The skimmer in our bathtubs has a completely different structure than the standard one, which means it cleans more water in a shorter time.

THERMAL COVER INCLUDED

With Europool Spa jacuzzis, you will receive a complimentary thermal cover, which reduces water evaporation, helps maintain its temperature, and prevents contaminants from entering.

STAINLESS STEEL FRAME

The frames of our tubs are practically everlasting, resistant to adverse conditions for many years.
